

What was good

You have:

- Shown that you can use a variety of image editing tools including selection, dodge/burn, shapes and layers
- Designed and created an effective and professional magazine front cover

Improvements

You could have:

- Tried to use selection tools more efficiently
- Made use of a wider range of tools
- Planned carefully during the design phase
- Described / justified the tools you used in more detail to show your understanding

Next Steps

- Describe 3 tools that you have used in your magazine cover
- Suggest when to use the magic wand or polygon lasso tools
- Discuss the negative impact of heavily edited images used in magazines and on websites

Student Response
