

## What was good

You have:

- Written an appropriate persuasive blurb
- Produced a wide range of documents that are suitable for their audience and purpose
- Answered questions and solved problems using a complex spreadsheet model
- Edited a web page effectively

## Improvements

You could have:

- Completed more tasks
- Used appropriate language suitable for your audience and purpose
- Used a spreadsheet model more effectively
- Produced a more effective web page

## Next Steps

- Say what you are most pleased during this unit
- Suggest 3 things you could have done that would have made your work better - and explain why
- Justify the use of specialist software rather than general purpose software for architects designing new buildings

## Student Response
